

June 08, 2012

Mr. Michael Marcotte  
Director of Utilities  
City of Alexandria  
P. O. Box 71 – City Hall  
Alexandria, La. 71309

Mike,

The following is in regards to your request for documentation of the City of Alexandria natural gas infrastructure information pertaining to a tract of land adjacent to UTLX at the England/UTLX property site.

Please be advised that the City of Alexandria, Gas Department maintains a 4" P.E. main gas line (50 psig) within the England/UTLX property site that should adequately meet the natural gas needs of the aforementioned location.

Also, please note that as-built plans for this property site can be obtained from Mr. Don Clayton with TRC Engineers, Inc.

If you have any questions concerning this matter, please contact me.

Sincerely,

A handwritten signature in blue ink, appearing to read "Clay Vanderlick".

Clay Vanderlick  
Superintendent  
City of Alexandria  
Gas Department
